Repair and Engineering Services

Maximum Experience, Minimum Downtime

HYSTAT
Hydraulic Cylinders

Hystat Repair Services

Hystat are the UK market leader in the design, manufacture, service and repair of hydraulic and pneumatic cylinders. With over 40+ years' specialist experience we are often able to repair and extend the reliable life of cylinders that may otherwise need to be replaced. Above all, we understand the costs of downtime and ensure repairs and refurbishments are implemented as quickly as possible without compromising quality and safety.

OUR REPAIR SERVICE INCLUDES:

- Free UK Collection
- Strip and Report Diagnostic Check
- Inspection by Fully Qualified Engineers
- All Products 100% Inspected
- Standard Testing on Mineral Oil or Water Glycol Fluids
- Testing to 4500 Bar and Cleanliness to NAS 6
- Paint Spray Booth In-house
- In-house Machining for Fast Turnaround

GOP (gross over-moment protection) Assembly

Repaired and recertified to current DNV rules after 15 years in use offshore.

Deep Water Pipeline Plough Cylinder

Repaired and recertified following client damage on site.

Hystat Engineering Services

We operate a modern subcontract machining facility dedicated to providing services to the highest possible standards. Our horizontal and vertical machining centres are complimented by a full 3 axis co-ordinate measuring machine and a range of slant bed lathes.

We specialise in engineering and machining for mining, earth moving, rail, defence and energy focussed businesses.

OUR ENGINEERING SERVICE OFFERS:

- Edgecam Computer Aided Design
- Horizontal Machining
- Vertical Machining
- Temperature Controlled Inspection Department
- Horizontal Boring
- BSEN ISO9001
- Lloyds Accredited
- Handling up to 3 Tonnes

Overhaul and repair of
26 Tonne Landing Craft Davits
